LEOPARD 2A6

MAIN BATTLE TANK

EN: Align the parts and press firmly on the lugs until the parts fit tightly together.

FR: Alignez les pièces et appuyez fermement sur les ergots jusqu'à ce que les pièces s'emboîtent étroitement.

DE: Richten Sie die Teile aus und drücken Sie fest auf die Nasen, bis die Teile fest zusammenpassen.

ES: Alinee las piezas y presione firmemente hasta que encajen bien.

EN: Be careful not to over tighten the screws.

FR: Attention à ne pas trop serrer les vis.

DE: Achten Sie darauf, die Schrauben nicht zu fest anzuziehen.

ES: Tenga cuidado de no apretar demasiado los tornillos.

EN: Pay particular attention to the orientation of the parts.

FR: Portez une attention particulière à l'orientation des pièces.

DE: Achten Sie besonders auf die Ausrichtung der Teile.

ES: Preste especial atención a la orientación de las piezas.

EN: Use a hammer to fit these parts.

FR: Utilisez un marteau pour ajuster ces pièces.

DE: Verwenden Sie einen Hammer, um diese Teile zu montieren.

ES: Utilice un martillo para colocar estas piezas.

LEOPARD 2A6

MAIN BATTLE TANK

Pack 13

Cher client,

Ce pack contient de nouvelles pièces qui, d'après les tests que nous avons réalisés, permettront d'améliorer les performances de votre char de combat principal Leopard 2A6. Veuillez utiliser ces pièces en remplacement des pièces originales qui vous ont été fournies durant votre construction.

Pièce 10-2, pack 02 (étape 10) : un ressort plus dur pour améliorer les mouvements de montée/descente du canon.

Pièce 10-1, pack 02 (étape 10) : un ressort plus souple pour un recul du canon plus réaliste. Dévissez le ressort fixé à la pièce 10-1 et remplacez-le par le nouveau ressort marqué 10-1.

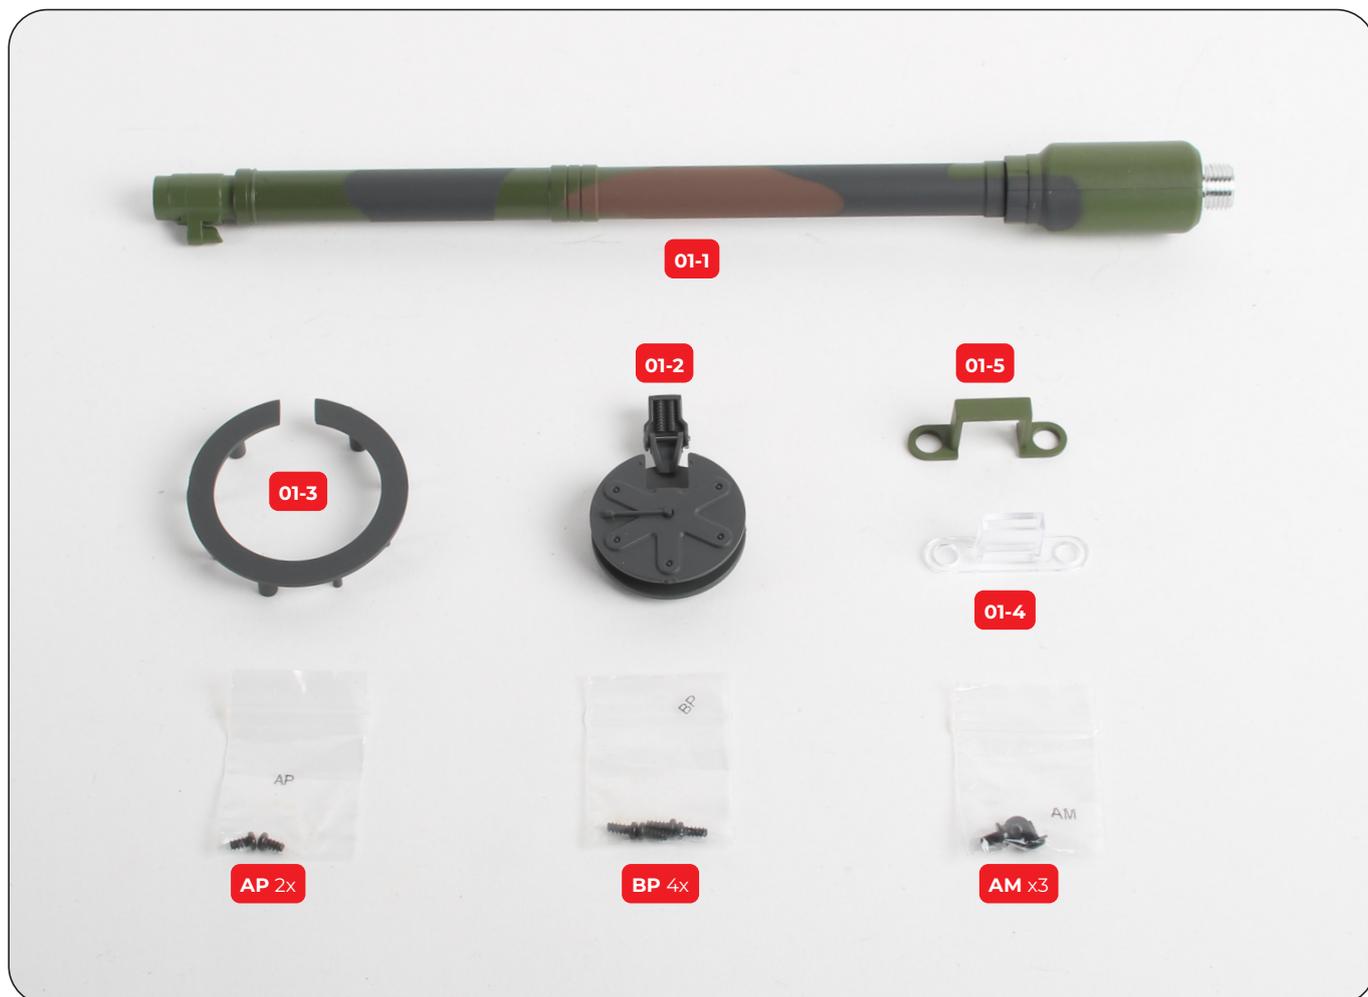

Les packs 6 et 7 incluent des ressorts pour la suspension des roues. Ces ressorts restent adaptés si votre Leopard est uniquement destiné à être exposé. Le pack 12 contient des ressorts plus durs, adaptés à une utilisation avec la télécommande sur un terrain accidenté. Nous les avons toutefois également inclus dans ce pack afin que vous puissiez choisir les ressorts qui vous conviennent lorsque vous arriverez à cette étape du montage. En cas de doute, utilisez les ressorts fournis avec ce pack et débarrassez-vous des ressorts de suspension fournis avec les packs 6, 7 et 12.

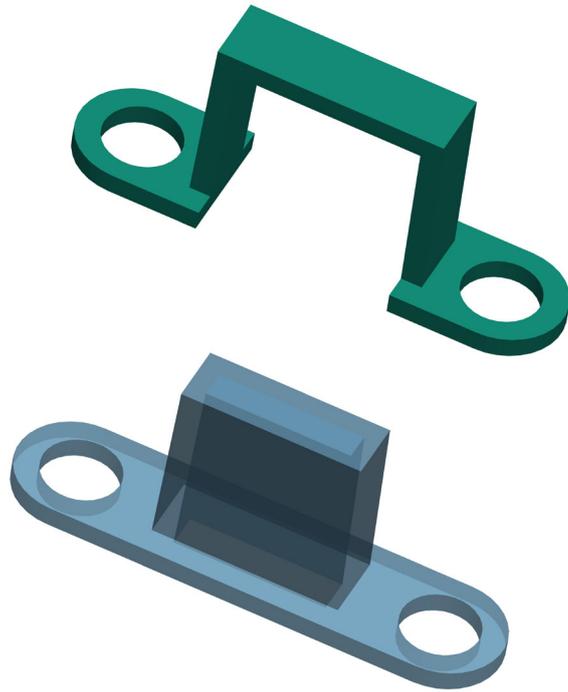

Pièce 75-1, pack 9 (étape 75) : nouveau circuit imprimé pour améliorer les mouvements de rotation de la tourelle et le fonctionnement des phares.

Pièce 82-1, pack 10 (étape 82) : nouveau câble pour améliorer les mouvements de rotation de la tourelle.

Pièce 91-1, pack 11 (étape 91) : nouveau circuit imprimé pour améliorer le son et le recul du canon principal.

En vous souhaitant beaucoup de plaisir dans la construction de votre char Leopard. Pour toute assistance supplémentaire et pour des échanges passionnants avec vos pairs, consultez la page Leopard 2A6 de notre forum.
